

## The HULFT EDI Service

We Manage Your EDI, You Manage The Business

With HULFT EDI, you can:

- Speed up business cycles by 60% or more
- Improve cash flow and reduce order-to-cash cycles by 20%
- Complete closed-loop transactions with partners in minutes with no human intervention required
- Automate application data across your supply chain with limited coding
- Dramatically reduced order processing times, resulting in more accurate inventory reports and fewer stock outs
- Faster document processes result in 80% less intervention and re-work by your staff

### End-to-End EDI Platform

HULFT is built on a highly scalable data integration and EDI platform hosted in the cloud that enables limitless trading partners, users and back-end data connections. HULFT offers a low-code, visual flow designer that connects your ERP, CRM, WMS, MES accounting and other major enterprise systems directly to your supply chain.

### A Cloud-Based Portal Available 24/7/365

Need to check on a document or a purchase order? Don't pick up the phone, just go to your custom portal that provides granular visibility into its status and what steps are required to complete the transaction.

### We're All About Standards

We maintain a library of over 600 connectors built on document standards such as ACH, EANCOM, EDIFACT, GISB, HL7, IATA PADIS, TRADCOMS, X12, VDA, PDF Label and more.

### Your Dedicated EDI Consultants

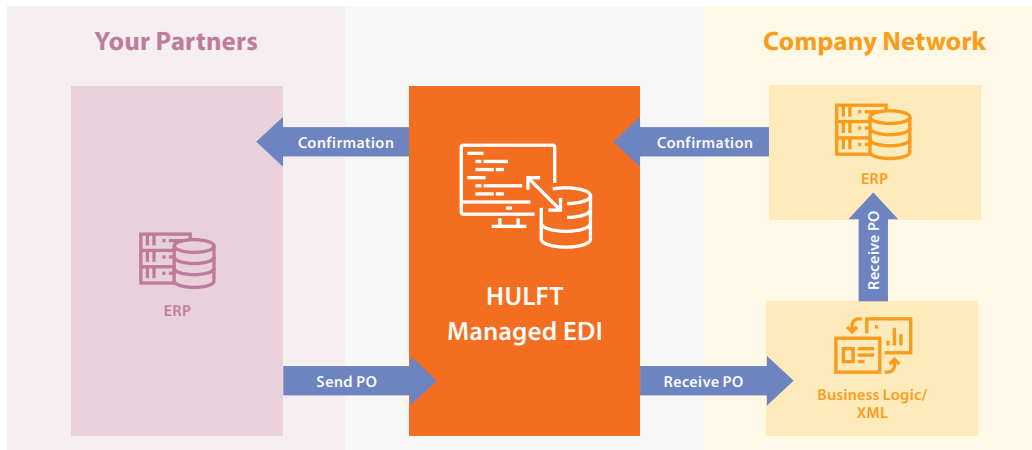

Our experts support your team with a tailored implementation that makes sense for your business and reduces your overall IT costs to support requirements. We can quickly onboard new staff and trading partners when they are added to the service. If you ever need to migrate your EDI to in house, we can help you do that as well.

(cont'd)

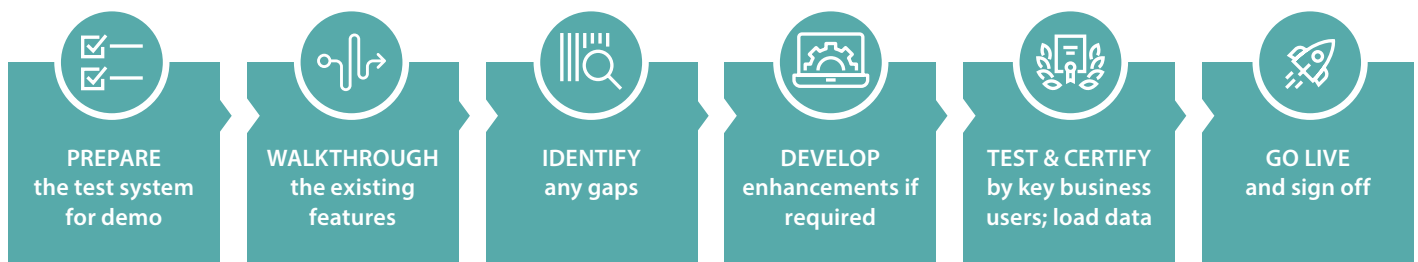

## Diagram of a Typical HULFT EDI Process

Because there are so many standards and communications protocols, you need a trusted partner that not only understands the end-to-end process, but one that can make changes as your business evolves. Leave it to HULFT to map and maintain your EDI workflow and inso you can spend more time with customers, partners and other strategic areas of the business.

## Implementation Methodology

With over 20 years of enterprise data integration experience, HULFT Professional Services has a proven methodology to work with businesses and IT teams to get projects off the ground fast and complete them in record time.
